ED/BGI Review
Sec 45

STATINTL

3 October 1967

Jim Brammell

(March 1967) and Syria (May 1967)

These recently published [REDACTED] do not seem to make any mention of the Arab-Israeli war in June. Although the war probably had little bearing on the validity of these two sections, some indication, perhaps in a footnote, that a war did take place would have seemed appropriate. Could not the editor have done this at pageproof review in August?
